

Taking pictures

For this exercise we all wrote 1 word and then take as many pictures of these word as we can. I started taking pictures on the roof of the university. I saw the sky, because sky was 1 of the words on the sticky notes. It had these beautiful traces that airplanes leave that looked so good.

Sky

Building

The second picture I took was "spring". It was this nice trees that had blossomed recently. They represented the starting of the spring.

Spring

For these I used the Manual exposure and I was playing with the speed, aperture and the ISO to see how they actually work.

Cucumber

Bottle

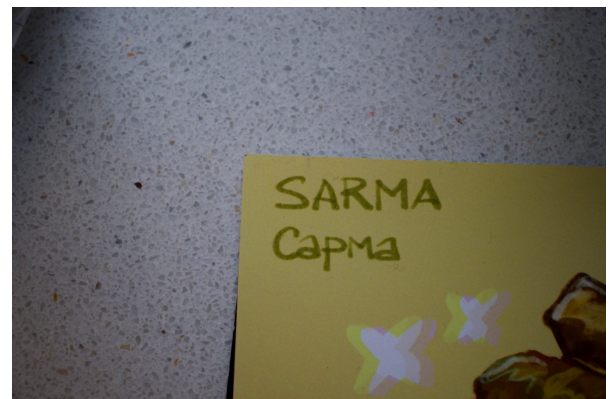

(For my 8 months that I've spent in the Netherlands I've seen 3 cats - 2 stray and 1 on a window of some house. I have a cat back home in Bulgaria and I bought this one when I came. I will put pictures of my cat when I see him during the holiday for sure. :))

Cat

For these 3 pictures I used the Miniature effect so I can focus on the objects.

Word

I will for sure continue this exercise and update it with more pictures.

For this picture I used the Close-up scene and I zoomed and focused on the words.
